Turning Point Propellers Part List	22-23

Who Is Turning Point Propellers

- One of the worlds largest propeller manufacturers. We own and operate our own aluminum and stainless steel foundries. From ingot to warehouse, we control 100% of the process.
- United States Corporation with warehouses in Jacksonville, FL and Chicago, IL.
- Design our propellers in Jacksonville, Florida. With a southeastern location we benefit from year round testing facilities that give us the ability to bring new product to market faster than our competition.
- We focus on engineering high performance propellers. We have new tools, the latest metal forming technology, and unbeatable aggressive designs.

The Only Part That Moves The Boat

- The Propeller is the link between the propulsive force of the boat, engine, and media that the boat is moving through.
- Like the tires on your car, the prop transmits power to motion.
- A new boat comes with a prop from the lowest bidder or captive factory, like the tires on your car. A factory prop is a "Firestone".
- Turning Point makes "Pirelli's". High performance products that will allow the boater to experience a performance envelop never seen on their boat before.

There is no item sold in the Marine Industry as cost effective as a propeller to increase the performance of any boat.

What Propellers Does Turning Point Manufacturer?

- 3 and 4 blade designs. Aluminum and Stainless Steel.
- 2 piece - Prop Housings and Installation/Hub Kits available for the full range of 6-300+hp Outboards and Sterndrive applications.
- Propellers available for: Coleman® Evinrude® Honda® Johnson® Mariner® Mercury® MerCruiser® Nissan® OMC® Parsun® Suzuki® Tohatsu® Volvo Penta® and Yamaha® outboard and sterndrive applications.

Turning Point Propellers Features and Benefits

Vented Propellers for 40-300+hp Engines (17+ Pitch Props 4.75" & 4.25" Gearcases)

- Hustler Aluminum & Express Stainless Steel Housings Have Vented Barrels for Fast Hole Shot/Low End Acceleration.
- Turning Point is still the only manufacture using this race proven technique in aluminum props.
- Wake-Boarders & water skiers get up out of the water faster!

Large Exhaust Pathways for 8-300+hp Engines (Hustler & Express Prop Series)

- Turning Point's Props have massive exhaust flow pathways.
- 40% more exhaust flow area VS rubber hub propellers with restrictive exhaust flow path.
- More exhaust flow and less back pressure can generate more horsepower.
- Like headers for your boat.

Turning Point Propellers Features and Benefits (Con't)

Premium **ULTRACOAT Powder Coat** (Hustler Prop Series)

- Exclusive to Turning Point, the Ultracoat powder coat rivals a fine automotive finish, and is more durable than paint.
- Utilizing a state-of-the-art five step process, Ultracoat gives the propeller a shiny, uniform appearance that enhances any boat's good looks.
- This is the Gold Standard in aluminum corrosion protection. Props look newer longer! Compared to competitors' 4 step paint and coating processes that result in much less abrasion and corrosion resistance.

24 Hour Slurry Test: 600% More Wear! Competitor's Process

24 Hour Slurry Test: Minimal Wear! TP Exclusive Process

How Does Turning Point Design Industry Leading Performance Props?

When Turning Point designs a new prop for a given category, they identify the best performing OEM and Aftermarket stainless steel props in the market that fits into that category. A better aluminum & stainless steel version is designed at the same time using the same geometry & drawing. Through testing, Turning Point's engineers modify the design until it performs better than the best competitive Stainless Steel prop.

Turning Point Hustler aluminum props function just like Express stainless steel designs and run within 0.5MPH to 1MPH of each other most of the time. There are many reasons for this:

- Hustler props are produced from the same stainless steel geometry & drawing.
- Hustler is cast using the latest state-of-the-art squeeze casting technologies.

The competition does NOT use stainless steel blade geometry with no-blade-flex squeeze cast technology in their aluminum propellers. Competitive Die-Cast aluminum propellers significantly under perform when compared to stainless steel designs seen in the market.

Turning Point uses the same geometry & drawing to produce a version in aluminum and in stainless steel. Aluminum propellers end up functioning just like Stainless Steel.

Hustler Aluminum Squeeze Cast Blades Have No Blade Flex

Turning Point's Hustler aluminum Squeeze Cast blades have No Blade Flex, and use stainless steel geometry which results in stainless steel performance.

TURNING POINT SQUEEZE CAST TECHNOLOGY:

- Strongest blades, no voids, fine grain, and easily repaired.
- Squeeze casting like plastic injection molding: best method for aluminum casting produces the highest strength aluminum props available.
- Hustler Squeeze Cast aluminum propellers utilize class leading designs previously only used on stainless props for maximum performance.
- Squeeze Cast blades have No Blade Flex – Turning Point uses stainless steel drawings/geometry which results in stainless steel performance.

COMPETITIVE DIE-CAST TECHNOLOGY:

- Air bubbles, voids, and granularity. Blades that are weak, lack of strength and stiffness.
- Blades Flex under load, inefficient, loss of propulsive efficiency.
- Propellers that are difficult to repair.

Turning Point Squeeze Cast Blade

Competitive Die-Cast Blade

A Turning Point In Stainless Steel Prop Manufacturing

- Proprietary TP17™ Stainless Steel has over 20% more chromium than most of the competition for improved finish and corrosion resistance.
- Current State-of-the-Art casting technology with Turning Point's leading edge designs results in the Express Mach3, Express Mach3 OS, and Express Mach4 propellers.
- INDUSTRY 4.0 Manufacturing - Never seen before blueprint like quality and performance in a production propeller at a production price. Coming Soon!

Want Something Better Than The OEM Prop?

Industry Leading Manufacturer of Aluminum and Stainless Steel Pleasure Boat Propellers

Highlighted Examples of Turning Point's Unmatched Propeller Geometry and Propping Tips

4 Blades That Re-wrote the Rules (Hustler 4 Blade and Express Mach4, 40-300+hp)

The props that put the "four" in Performance! These props re-wrote the rules, proving that you can run a four blade that has:

- Unprecedented hole shot, lift, handling, ease of steering, and rough water stability.
- No top-end speed loss you experience with other manufacturers' 4 blade propellers – keeps 3 blade top end speed.
- Lifts the entire boat higher out of the water.

By lifting the hull higher, boats tend to lose less speed when fully loaded versus a three blade prop. With a lightly loaded boat, a three blade is usually the faster prop for most applications. Alternatively when an application is loaded down with extra people and gear, a three bladed prop can lose up to 3 MPH. This is because the hull is forced deeper into the water causing more wetted surface by the added weight. By lifting the hull higher the Turning Point 4 blade when fully loaded does not lose the top end speed compared to a three blade propeller.

40-150hp w/ 4.25" Gearcase Applications: use Turning Point's state-of-the-art Swept Cleaver design (all 4 blades are the same).

150-300+hp w/ 4.75" Gearcase Applications: use Turning Point's Dual Geometry design that is uniquely engineered with two blade geometries:

- Two blades utilize a round ear high performance variable rake and aggressive pitch design for incredible bow lift, hole shot, and cornering.
- Two blades utilize a semi cleaver offshore style design for high speed and maximum stern lift.

Big Blades For Big Horsepower - Express Mach3 OS (150-300+hp)

- Improved cup, leading / trailing edges, aggressive progressive rake, and blade geometry.
- New design modifications produced a prop with excellent hole shot, impressive bow lift and class leading cornering.
- The Express Mach3 OS is perfectly matched to large horsepower bay boats, offshore center consoles and high horsepower tri-toons.
- Large diameter three blade props offer great mid-range fuel economy in most applications.
- Available pitch options: 11, 13, 15, 17, 19, 21, 23, 25, & 27 in Left & Right Rotation.

Why Upgrade To A Turning Point Stainless Steel Propeller?

- Stainless steel propellers are much more durable compared to aluminum.
- Substantial better performance over competitive aluminum propellers. (Minimal performance difference, around 0.5-1mph speed gain over TP Aluminum Propeller Designs.)
- Large 15.6 diameter 3 Blade Express Mach3 OS only offered in Stainless Steel.
- Expect better performance over competitive OEM and Aftermarket Stainless Steel propellers.

What's The Difference Between A (3) Blade and (4) Blade Prop?

- A three blade prop gives high top end speed and good bow lift. Pontoons, boats with good power to weight ratios, light front ends run best with 3 blades.
- A four blade prop gives great hole shot (acceleration) and stern lift. Perfect for watersports and heavy/underpowered boats.
- A 4 blade prop will hold top speed longer than a 3 blade prop as you add weight (load) to a boat.

Generic Propping of Pontoon Boats

- More times than not use a three blade, unless the pontoon is under powered.
- Use large diameter Express Mach3 OS (OS) on High Horsepower Tri-Toons (200+hp).

Swept Cleaver, 40-150hp w/ 4.25" Gearcase

Also available in aluminum

Dual Geometry, 150-300+hp w/ 4.75" Gearcase

Also available in aluminum

Available in Stainless Steel Only

Lifetime Warranty Hubs

A Full Range of MasterGuard Installation/Hub Kits Available for 6-300+hp Applications

Hub Kits Currently In The Market

Competitive Hub Kit Observations

- Some Competitor Hubs are made of Aluminum Anodized to confuse the boater into thinking it is brass. Aluminum splines become an anode in many conditions and may corrode.
- Soft Rubber Shears easily, can spin and leave the boater stranded like a rubber hub prop. Rubber covering is as thin as .035", Or 6 Sheets of Paper!
- Competitors Two Piece Hub Systems corrode, have corner breakout shift-shock damage, spin out, body failure in aluminum propellers, plastic splines.

Competitive Hubs Currently In The Market (Not TP Hubs)

Turning Point Installation/Hub Kit Features and Benefits

The Last Hub You Will Have To Buy • Engineered To Not Let You Down

- MasterGuard Installation/Hub Kits carry the only Lifetime* Warranty in the WORLD!
- Hubs have no* warranty restrictions, except for extreme commercial use.
- Saves a boater up to 33% on replacement propeller purchases (need to purchase prop housing only).
- One piece design: durable marine Bronze with Over Molded Glass Filled Nylon for Long Life.
- Re-useable after a Prop Strike.
- Warranted even if the prop is Destroyed!
- Enhanced lower unit protection.
- Warranted even if used in competitive propeller housings (Mercury, Michigan Wheel, Solas)

*Note: Lifetime Warranty on 500 & 700 Series Hubs Apply To Non-Commercial Use Only, for terms & conditions visit <http://tpprops.com/warranty>

New Hub for High Horsepower Outboards and Sterndrives

High Horsepower Outboards and Sterndrives put extreme stress on a boat's driveline components. The increased torque output of supercharged, V-6 and V-8, and diesel outboards are testing the limits of modern metallurgy and thermoplastic engineering.

- From the Inventors of the First Interchangeable Hub and Housing System over 20 years ago, Turning Point Propellers has introduced a New family of MasterGuard Super Duty Installation/Hub Kits.
- These new kits will allow Turning Point to extend the Industries' only Lifetime Warranty on all of our hub kits - unmatched by any competitor worldwide.
- For any installation of 200+hp Engine w/ a Stainless Steel Prop, the use of a 700 Series Super Duty Kit is now required to qualify for our Lifetime Warranty (Otherwise use the standard 500 Series).

Prop Finding Tools

Multiple Ways To Find The Right Prop

Turning Point Propeller Selection Assets

Prop Wizard Makes Every Dealer A Prop Expert

- Online Tool (<https://turningpointpropellers.com/PROPWIZARD>): Any dealer associate can access it on Turning Point's website or Prop Wizard can easily be embedded into the Dealership's website for use as if it was their own tool. It uses a database of 300,000 boats and over 7,500 engine combinations to calculate the most accurate diameter and pitch recommendation available: two props listed, one for cruising and one for water sports, allows dealers to upsell spare.
- Get the right prop the first time, reduces returns/exchanges. Saves time, saves money, maximizes profits, eliminates bad advice and unhappy customers. Tri-View Design for viewing on computers, smart phones, and tablets for easy propping anywhere in the dealership, even in the parking lot by a customers boat!

Prop Wizard - On-Shelf Prop Wizard Kiosks also available with qualifying purchase.

Selection Chart - Fast Access to Application Data (1 Page 2 Sided)

- Turning Point's entire product line fits on an easy to use non-tare two sided single sheet that includes a gondola mounting hole. Quickly find the hub and prop you need without thumbing through large and confusing catalogs commonly used by competitive manufacturers.
- Turning Point's products are grouped by horsepower range & gearcase size using a combination of shapes and colors making it easy to identify the parts needed for a given application.

Selection Chart

Master Catalog

- Search for a prop by engine manufacturer - products are then grouped by horsepower range & gearcase size within a specific manufacturer's section.
- Search using detailed engine application data in the back (includes Wide-Open-Throttle RPM information). Data organized by Manufacturer, Horsepower, Model, Year.
- Includes Hub Kit parts & stack-up listing that includes actual part images laid out in an easy to use format.
- Last two pages include a complete part listing.

OEM and Aftermarket Part Number Crossover to Turning Point

- Available in a spreadsheet or a printed version for Solas, Quicksilver, Michigan Wheel, and more. Look up an exact part to get the equivalent Turning Point item.
- Also available online within Prop Wizard's more prop finding tools tab.

Not All Recommendations Are Correct

Many times a propeller was sold to a customer that did not work out for their application due to unforeseen variables. All propeller manufacturers run into this situation. Boaters are often stuck with a propeller they can't use and are forced to purchase a second prop. This turns into a bad customer experience quickly.

Dealers and Boaters Are Not Stuck with The Wrong Prop Propeller Pitch Exchange Program (Available Only for Contiguous USA)

For those customers who purchased the wrong pitch propeller and want to exchange for another pitch from the same propeller family. Turning Point will exchange for a \$25.00 fee for each aluminum prop or a \$35.00 fee for each stainless steel prop from their "exchange inventory". This nominal fee covers return shipping to the boater. The propeller housing to be returned for exchange must be in "new condition" - nicks, scratches, wear marks, or abrasions on any blade area will be rejected. This program is handled directly through Turning Point Propellers; for more information visit www.tpprops.com/exchange.

NEW ENGINEERING CRANKS UP BOAT PERFORMANCE

Stainless Steel Performance at Aluminum Prices

New unique blade geometry and manufacturing processes results in the highest performance aluminum propellers on the block. Hustler® propellers out performed most competitive stainless steel props in recent tests. Not only does top speed, handling and hole shot improve, but also mid-range performance, which will save you a ton in gas usage.

Squeeze Cast for Added Strength

Stainless steel performance is built into the Hustler Aluminum prop line. This is achieved through unique blade geometry and an exclusive Turning Point manufacturing process, Squeeze Casting. It generates the highest mechanical properties attainable in a cast aluminum prop resulting from a tighter grain structure. Stiffer blades means less flex and a faster prop. Competitors still use old Die-Cast processes that produce blades that flex, resulting in overall poor performance.

SQUEEZE CAST

- Turning Point Exclusive Process
- Applied to all Aluminum Designs
- Tight Grain
- Strong and Stiff
- Reduces Flex for Maximum Thrust

DIE-CAST

- Competitors' Process
- Pockets Voids, Air Bubbles
- Weak and Flexible
- Inefficient Transfer of Power
- Poor Repairability

The New Express® Mach3™ OS™ Series of Stainless Steel Propellers are the next step in the evolution of our very popular larger diameter VO series. Our Engineers and Propeller Experts made improvements to the cup, leading and trailing edges, and the aggressive progressive rake and blade geometry that are Turning Point hallmarks. These modifications have produced a propeller with excellent hole shot, impressive bow lift, and class leading cornering. The Express Mach3 OS is perfectly matched to large horsepower bay boats, offshore center consoles, and high horsepower pontoons/tri-toons. It will fit all 90hp and larger 4.75" gearcase outboards from all engine manufacturers, and Mercury® Alpha One™ and Bravo One™, and Volvo® Penta® SX sterndrives. Large diameter three blade propellers offer great mid-range fuel economy in many applications. Whether you are looking to maximize your time on the water, extend your cruise range, or just stretch your fuel dollars, the Express Mach3 OS is a great choice to get the most out of your boat.

Turning Point manufactures propellers to fit 6-300-hp Evinrude®, Force®, Honda®, Johnson®, Mariner®, Mercruiser®, Mercury®, Nissan®, OMC®, Parsun®, Suzuki®, Tohatsu®, Volvo Penta®, and Yamaha® Outboards and Sterndrives. Choose one of our Lifetime Warranty MasterGuard Installation Kits to fit your engine, then choose the propeller that matches your boating requirements. There are 3 & 4 blade, left & right rotation prop models with a variety of diameter & pitch options available for almost all boat types. Our Props Run Faster, Pull Harder, and Handle Better.

Left Rotation Right Rotation (standard)

Aluminum Propeller Part List (Installation/Hub Kit Required)

 Left Rotation  Right Rotation (standard)

CC Part #	B	R	Props For 2.5" Gearcase Use 200 Series Installation Kits
904-21100910	3		Hustler 9X9 Prop Housing
904-21101010	3		Hustler 9X10 Prop Housing
904-21110910	3		Hustler 9X9 Prop Housing
904-21111010	3		Hustler 9X10 Prop Housing
CC Part #	B	R	Props For 3" Gearcase Use 20 Series Installation Kits
904-21201110	3		Hustler 10.5 X 11 Prop Housing
904-21201310	3		Hustler 10.125 X 13 Prop Housing
904-21211110	3		Hustler 10.375 X 11 Prop Housing
904-21211310	3		Hustler 10.375 X 13 Prop Housing
904-21221110	3		Hustler 10.5 X 11 Prop Housing
904-21221310	3		Hustler 10.125 X 13 Prop Housing
CC Part #	B	R	Props For 3.5" Gearcase Use 10 Series Installation Kits
904-21301110	3		Hustler 10.875 X 11 Prop Housing
904-21301210	3		Hustler 10.75 X 12 Prop Housing
904-21301310	3		Hustler 10.5 X 13 Prop Housing
904-21301410	3		Hustler 10.375 X 14 Prop Housing
904-21301510	3		Hustler 10.125 X 15 Prop Housing
904-21300810	3		Hustler 12.5 X 8 Prop Housing
904-21301010	3		Hustler 12 X 10.5 Prop Housing
904-21311710	3		Hustler 11.75 X 17 Prop Housing
904-21310810	3		Hustler 12.5 X 8 Prop Housing
904-21311010	3		Hustler 12 X 10.5 Prop Housing
904-21311310	3		Hustler 12.5 X 13 Prop Housing
904-21311510	3		Hustler 12.25 X 15 Prop Housing

CC Part #	B	R	Props For 4.25" Gearcase Use 500 Series Installation Kits
904-21431111	3		Hustler 14 X 11 Prop Housing
904-21431311	3		Hustler 14X13 Prop Housing
904-21431511	3		Hustler 13.75 X 15 Prop Housing
904-21431711	3		Hustler 13.25 X 17 Prop Housing
904-21431911	3		Hustler 13.25 X 19 Prop Housing
904-21432111	3		Hustler 13.25 X 21 Prop Housing
904-21432311	3		Hustler 13.25 X 23 Prop Housing
904-21431130	4		Hustler 14 X 11 Prop Housing (Swept Cleaver Series)
904-21431330	4		Hustler 14 X 11 Prop Housing (Swept Cleaver Series)
904-21431530	4		Hustler 13.5 X 15 Prop Housing (Swept Cleaver Series)
904-21431730	4		Hustler 13.25 X 17 Prop Housing (Swept Cleaver Series)
904-21431930	4		Hustler 13 X 19 Prop Housing (Swept Cleaver Series)
904-21432130	4		Hustler 13 X 21 Prop Housing (Swept Cleaver Series)

CC Part #	B	R	Props For 4.75" Gearcase Use 500/700 Series Installation Kits
904-21501511	3		Hustler 15.25 X 15 Prop Housing
904-21501711	3		Hustler 14.25 X 17 Prop Housing
904-21501911	3		Hustler 14.25 X 19 Prop Housing
904-21502111	3		Hustler 14.25 X 21 Prop Housing
904-21502311	3		Hustler 14.25 X 23 Prop Housing
904-21501530	4		Hustler 15 X 15 Prop Housing (Dual Geometry Series)
904-21501540	4		Hustler 15 X 15 Prop Housing (Dual Geometry Series)
904-21501730	4		Hustler 14.5 X 17 Prop Housing (Dual Geometry Series)
904-21501740	4		Hustler 14.5 X 17 Prop Housing (Dual Geometry Series)
904-21501930	4		Hustler 14 X 19 Prop Housing (Dual Geometry Series)
904-21501940	4		Hustler 14 X 19 Prop Housing (Dual Geometry Series)
904-21502131	4		Hustler 14 X 21 Prop Housing (Dual Geometry Series)
904-21502141	4		Hustler 14 X 21 Prop Housing (Dual Geometry Series)

4.25" & 4.75" GC Items Compatible with Competitors' Hub & Prop Systems

Works with Mercury® Flo-Torq II®, Michigan Wheel® XHS®, Solas® Rubex™
